Do you think you might suffer from chronic sinusitis?

Right now, we are seeking people with chronic sinusitis to join our research study of a new investigational treatment.

To participate, you must have had (for a minimum of 12 weeks) at least 2 of these symptoms:

• Congestion
• Nasal discharge
• Facial pain and pressure, in the “sinus” region
• Loss or reduction in the sense of smell

There is no charge for visits or treatments required by the study and compensation may be available to those who qualify.

Please, contact us today to learn more about participating.
